ADSORPTION SACK & FRAME

Sack enables retention of solids and oil residue, whilst allowing effluent to filter and drain

Heavy duty sacks, ideal for onsite waste. Specially designed to allow the fast flow of water whilst retaining solids and adsorbing contaminants. Ideal for washing concrete equipment off into and other onsite waste disposal.

Can also be used to empty settlement tank and filter waste water. Sacks can be used in conjunction with a Frame to allow drained water to be pumped to discharge point or reintroduced back into water treatment systems.

No power is required

Simple to set up, empty and operate

Solids are retained in sack

Dims (mm) approx.	1450 (L) 1240 (W) 1080 (H)
Weight approx.	Unladen: 300kg Laden: 1300kg
Power Required	Not Required
Consumables	Adsorption Sacks
Capacity approx.	750ltrs (sack) 300ltrs (Frame Base)
